rental_count by type of movies
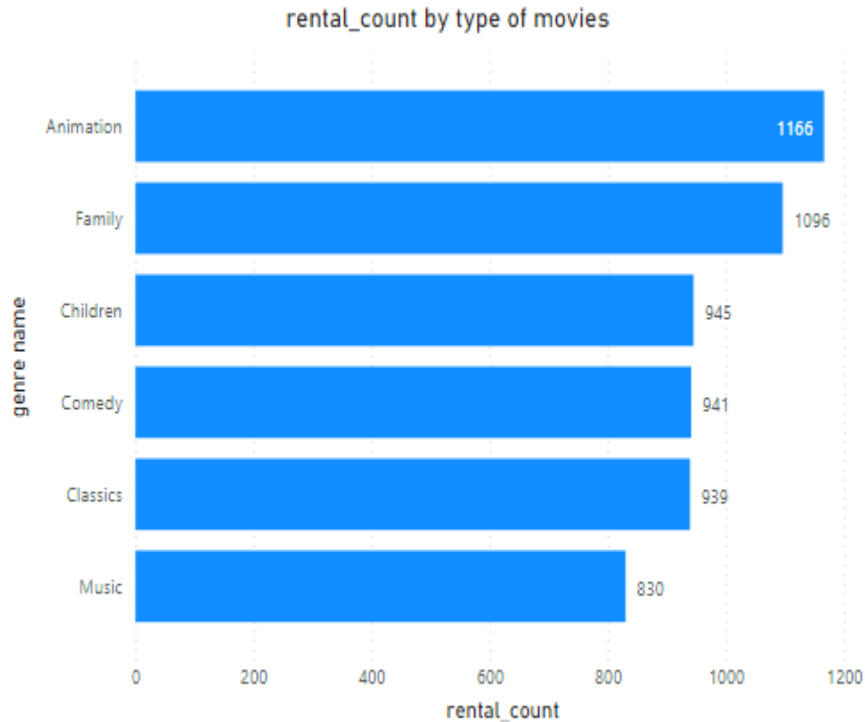

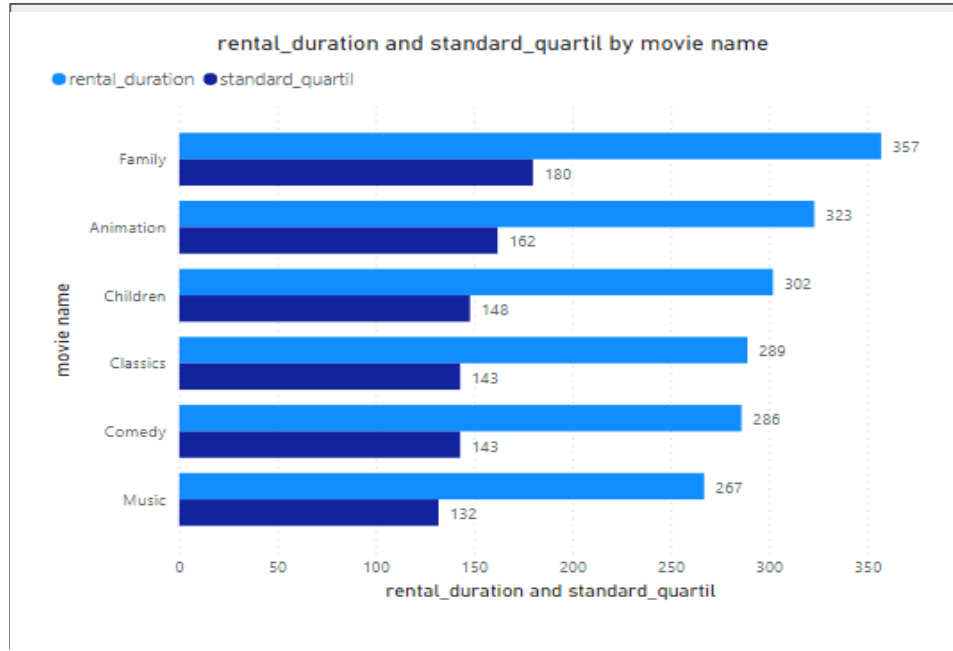

Since the left visual shows , we understand that animation move is the most common

While music is the least common

rental_duration and standard_quartil by movie name

● rental_duration ● standard_quartil

Her the visual declare that first quartile is best for rental duration while

The quartile one is the worst

counts by movie name

the best family movies family type but worst one is music ,

count_rentals by store_id and rental_month
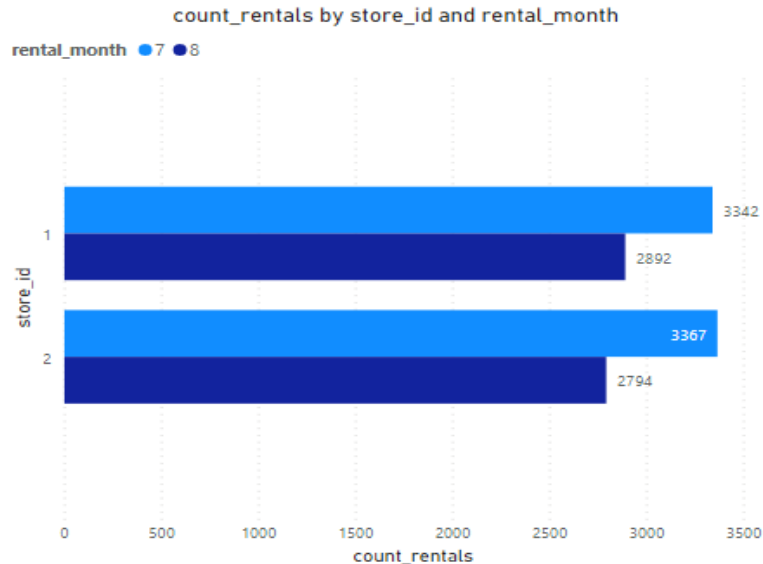

The performance of store 2 is slightly better than performance in store 1 in 7 of 2005
But store 1 is better than performance of store 2 in the 8-2005
